

Host a Pod Blood Drive

Why host a Rhode Island Blood Center Pod Blood Drive?

- 1 Provide an employee engagement opportunity**
The Pod is an elevated blood drive experience where employees and members of the community can come together to save lives.
- 2 Be a beacon of safety**
By hosting the Pod, you are contributing to the overall community blood supply.
- 3 Show your organization's commitment to local social causes**
By hosting a place for blood donors to donate, safely and comfortably, you are showing your business' commitment to the wellbeing of your community.
- 4 Increase brand awareness**
When people come to donate blood and support Rhode Island Blood Center's mission of saving lives, they'll have immediate access to your own business.

What am I committing to when I host a Pod?

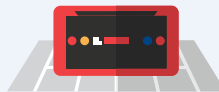

Shore power

While the Pod is equipped with two generators, "shore power" is preferred to avoid the need for gas or refueling of the generators.

Arrival and setup coordination

An RIBC representative will be on site to help facilitate and secure the Pod placement on the day of delivery.

Designated space

The Pod must be placed on either asphalt or concrete and the surface must be level to ensure the best event experience.

Restroom access

We ask that you please provide restroom access for all RIBC donors and staff.

Insurance information

RIBC will provide a Certificate of Insurance that will include your location and any additional insurance requirements.
